Description

The **BOSE Sub2 Powered Bass Module** is ideal for those seeking enhanced low-frequency output for their sound system. With its robust build, it integrates seamlessly with other Bose devices. The **20 Hz low-frequency bass** shakes the room with clean, distortion-free sound.

Featuring the uniquely engineered **RaceTrack driver technology**, the Sub2 offers a slim yet powerful subwoofer that takes up less space while producing impressive bass. It delivers punchy, impactful sound that enriches musical performances, movies, and other events.

Thanks to its **SubMatch** connectivity, the Sub2 easily connects to Bose L1 Pro systems, providing greater flexibility and ease of use. Designed with ergonomic handles and a sturdy construction, it is easy to transport and install, making it a versatile addition to any professional or personal sound system.
