Description

The GENIUS NX-7015 offers a stylish design and reliable wireless functionality. The 1600 DPI optical sensor provides precise and fast tracking, making it suitable for browsing, document editing, or gaming. The 2.4 GHz wireless technology ensures a stable connection with minimal latency. The nano receiver, with its built-in storage compartment, makes it easy to carry and eliminates the worry of losing it. Its ambidextrous design ensures comfortable use for both right- and left-handed users. The mouse's long battery life reduces the need for frequent recharging or battery replacement. Its compact and lightweight design makes it an ideal choice for home, office, or travel use.
