Netto price: 306 HUF

Description

The JBL BASS PRO BP12 active subwoofer is a robust and powerful solution that offers a deeper and richer music experience. Its 12-inch woofer boasts a maximum power output of 500W and an RMS output of 300W, easily filling the car space with intense bass sounds. The subwoofer's active amplifier is optimized for JBL's signature sound, delivering clean and precise bass suitable for every music genre.

Designed for easy installation, the BASS PRO BP12 is versatile enough to fit both custom and factory car audio systems. Its compact size and low profile make it compatible with almost any car, requiring minimal space while providing maximum performance. Engineered by JBL, the built-in subwoofer guarantees a unique and dynamic sound experience.

Additionally, the subwoofer includes a bass boost function, allowing users to adjust the bass level to their preference. The JBL BASS PRO BP12 is an excellent choice for those looking to enhance their car audio system and enjoy an exhilarating music experience.
