Description

The Logitech K280e wired keyboard combines functionality with comfort, making it an excellent choice for everyday use. Its spill-resistant design protects against accidental spills, ensuring durability and long-lasting performance. The low-profile keys provide a quiet typing experience, allowing for focused work in shared spaces without disturbing others. The standard layout, including full-sized F keys and a numeric keypad, offers a familiar experience for users transitioning from other keyboards. The plug-and-play feature allows for simple USB connection to your computer, ready for use immediately without the need for software installation. Its robust construction and reliable performance make it ideal for both home and office environments, providing essential features for efficient productivity.
